

The Green Orbs Songwriting Programs and Workshops

Green Orbs Performance:

The Green Orbs will perform a one hour set of their original songs. This interactive show will have students singing and dancing along!

Songwriting Assembly :

The Green Orbs will give an interactive presentation on the process of songwriting using their songs as a springboard for topic discussions. The one hour presentation includes song performances and discussion of the songwriting process from brainstorming to writing music featuring student interaction throughout the assembly.

Assembly + Songwriting Workshops :

In addition to the Songwriting Assembly, The Green Orbs will compose a song together with a class of students (no more than 30 students per class) based on a topic chosen by the students. During each hour session, the class will work through The Green Orb's songwriting process to create their own composition that will be recorded as a demo and sent to the school as an MP3.

The Green Orbs Artist Residency:

The Green Orbs spend a week at your school. First, they'll give their Songwriting Assembly. Throughout the week, they will give Songwriting Workshops throughout the school. Finally, they'll perform all songs created throughout the week at a Final Jam Assembly.
